BlueScope Distribution  
Albury

Steel. Aluminium.  
**Knowhow.**<sup>TM</sup>

# Commitment to customer success

**We are BlueScope Distribution Albury, a leading steel and aluminium distributor and solutions provider.**

Servicing Albury and the broader districts, we are your convenient single-source supplier and processor of everything from BlueScope's massive range of premium products. In addition, we supply Aluminium from our carefully selected partner brands.

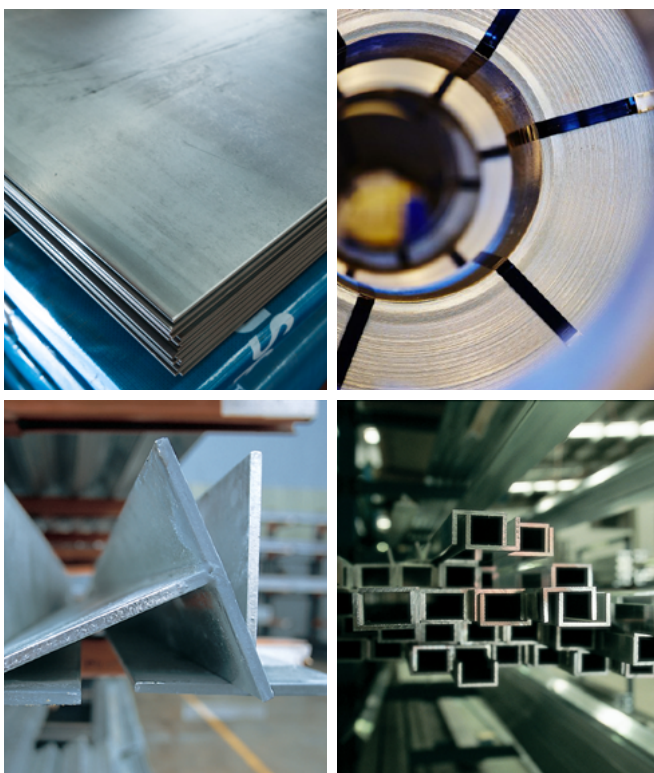

Including a diverse range of processing capabilities, our team offers knowledge and experience, technical knowhow and project management, as well as assisting our customers in managing their supply chain. With BlueScope Distribution you get everything under one roof. It's all about making life easier.

With extensive experience and a comprehensive steel and aluminium product range, we have the ability to service customers supporting construction, agriculture, transport, engineering and manufacturing in the Albury and Wodonga region.

**The Albury branch has recently been extended and now boasts a total site size of approximately 7,500m<sup>2</sup>, allowing for the following key customer benefits:**

- » An additional 2,000 tonne of steel and aluminium products, stocked and ready for your next project
- » 2 new 10 tonne overhead dual hoist cranes to help us get your material out faster and safer
- » An additional third driveway that provides the ability to load and unload faster resulting in quicker turnaround times and
- » An expanded customer focused team to further improve our end to end supply chain solution

Rainwater goods

# Your single source product, processing and service solutions provider

## 01 Steel. Aluminium.

### Products

We have access to a full suite of steel and aluminium products as well as the ability to produce specially designed steel grades outside of the standard product range, through the BlueScope mill.

As a trusted distributor of steel and aluminium products, we partner with our customers to meet their project requirements. Backed by our commitment to quality, we ensure full material traceability and compliance via our material test certificates.

Some of our key products include:

Colorbond® Truecore® Zincalume® Galvabond®  
Zincform® Xl=erplate® TruSpec® RedCor®

## 02 Steel. Aluminium.

### Processing

Our team is committed to providing high quality steel and aluminium processing through local and metro third party providers. Our capabilities range from steel sheet cutting, bevelling, profiling, drilling, and flange thinning to complex and precise four side processing. We also offer external processing with steel laser cutting for steel and aluminum products as well as blasting, priming and galvanising.

Whether your business is in construction, manufacturing, transport, mining or agriculture, our team at BlueScope Distribution Albury provides our customers with high quality processing capability, products and solutions.

Our key processing services include:

Steel sheet  
shearing &  
coil slitting

Aluminium routing,  
sheet shearing  
& coil slitting

Value Added  
blasting, priming  
& galvanising

# Achieving business success

We are proudly Australian and work to provide you with quality steel and aluminium products matched with exceptional customer service. Our Value Proposition is based on the following key product and service offerings:

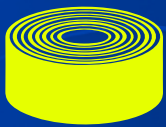

## Efficiency

Experience the ease of dealing with a single-source steel and aluminium product supplier, processor and service solutions provider. We deliver locally, servicing Albury, Wodonga, Wagga Wagga, and Wangaratta. Delivery options available to Shepparton, Alpine areas, Griffith, Leeton, Lake Cargelligo, Young, and Cowra regions.

## Understanding

Our skilled people with depth of industry expertise, technical know-how, and local knowledge strive to provide a unique level of customer understanding. With over 50 years of collective project management experience and local market knowledge within the Albury area, we have the understanding to support your projects.

## Strength

The strength of our steel and aluminium products made for tough Australian conditions aim to deliver industry confidence. Our product certification, high testing standards, streamlined logistics and reliable delivery timeframes provide our customers the assurance they need.

## Certainty

We are proudly Australian. Part of the broader BlueScope group of businesses, our diversified range of steel and aluminium products, processing capability and project management solutions are focused on helping our customers find the freedom to do what they do best.
