Our team also offers a range of value-add services and can partner with your business to provide:

- Our delivery options include next day delivery locally, including the Central Coast, Muswellbrook and Port Stephens areas. We also deliver 3 days per week into the Mid-North Coast to Kempsey region.
- Direct access to our local steel mill for welded sections.
- Project management support with over 50 years of collective experience and local market knowledge within the Newcastle area.
- Product support including test certificates, providing you assurance of your project's material traceability.

In addition to our structural range, BlueScope Distribution Newcastle has a significant stock profile including:

- Traditional steel including sheet and coil products located in Newcastle
- Aluminium sheet and extrusion
- RHS and commercial pipe
- Merchant bar including angle, flats and rounds
- EMBAR® steel
- ERW
- Plate

With extensive experience in large-scale projects, we understand having continuity of supply and continuous communication from design to completion is crucial to success. Close collaboration with our customers is key to satisfying the requirements of large-scale and complex projects.

Whether your business is in Manufacturing, Building, Transport, Mining or Agriculture, our team at BlueScope Distribution Newcastle has the steel and aluminium range, services and expertise to keep your project running smoothly.
