

Residential Building **capability statement**

**Proudly supporting
residential building projects with
steel and aluminium products,
processing and solutions**

Steel. Aluminium.
Knowhow.

Our commitment to project success

We are BlueScope Distribution, a market leading steel and aluminium distributor and solutions provider. We are part of the broader BlueScope group of businesses, servicing a wide range of industries in Australia.

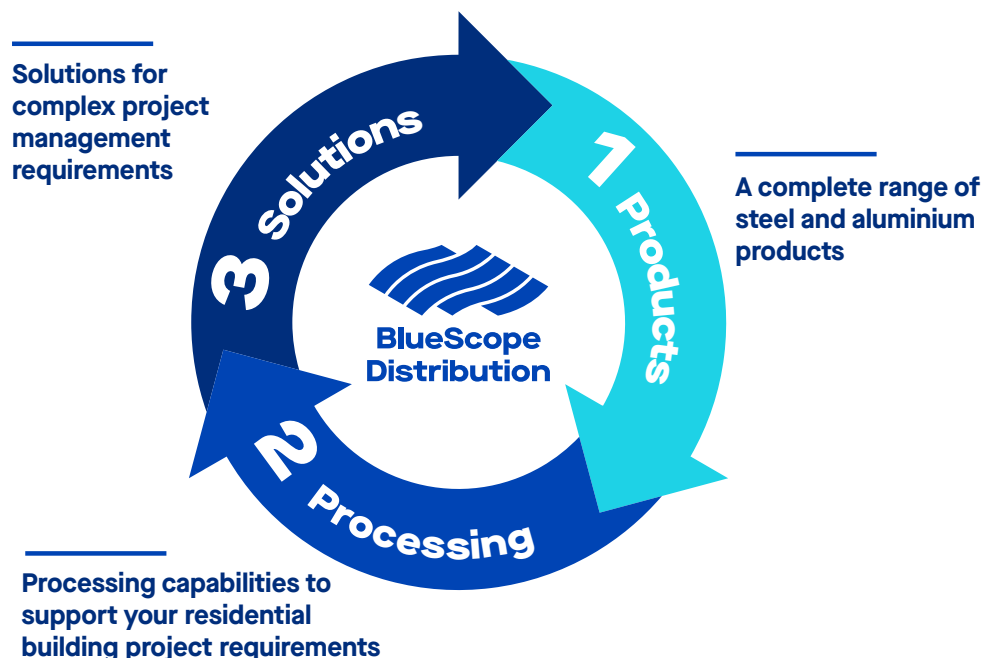

Our team is committed to providing a diversified range of products, high quality processing capability and a broad range of services which help support our customers to find the freedom they need to do what they do best.

With a national network of branches across metro locations and major regional towns, BlueScope Distribution can help co-ordinate a full suite of product, processing and project management requirements our customers need.

Providing end to end solutions to the residential building industry

Experience the ease of doing business with your single source provider - delivering:

Your single source product, processing and service solutions provider

01 Steel. Aluminium.

Products

We have access to a full suite of steel and aluminium products as well as the ability to produce specially designed steel grades outside of the standard product range, through the BlueScope mill. As a trusted distributor to the residential building industry, we partner with our customers to meet their project requirements.

Backed by our commitment to quality, we help reduce compliance risk through our ISO 9001 quality management system accreditation with documented systems and processes. We also ensure full material traceability and compliance via our material test certificates.

Some of our key products include:

Colorbond® Truecore® Zinalume®
Galvabond® Zincform® Galvaspan®

02 Steel. Aluminium.

Processing

BlueScope Distribution provides a complete range of steel and aluminium processing which enables us to provide ready to use products our customers serving the residential building industry turn into end user solutions.

We are committed to providing high quality processing capabilities, ranging from steel plasma cutting, bevelling, shearing, slitting and re-coiling to complex and precise aluminium router cutting. We also offer external processing with laser cutting (steel and aluminium), blasting and priming steel products to support project work.

Our key processing services include:

Steel plate plasma
cutting, drilling,
etching & bevelling

Steel sheet
shearing & coil
slitting

Aluminium routing,
sheet shearing &
coil slitting

Aluminium PE film
application for
surface protection

Solutions

Highly recognised for our exceptional customer service, we provide our residential building customers with end-to-end steel and aluminium project management solutions, delivering personalised supply chain co-ordination. Our teams have the experience to meet project milestones by coordinating material from multiple suppliers, managing production schedules, transport and delivery to provide one seamless point of contact.

Our ability to label and kit material helps some customers to find significant efficiencies in their production, and our team have the technical resources to tackle the most complex project requirements. We can provide storage solutions or VMI (Vendor Managed Inventory) for our customers serving the residential building industry – involved in key projects.
