

We are BlueScope Distribution

We are BlueScope Distribution, a market leading steel and aluminium distributor and solutions provider. With a national network of 16 branches across metro locations and major regional towns, we are committed to supplying our customers with quality products, associated processing and project management solutions.

Our customers experience the ease of dealing with a single-source supplier and the efficiency of doing business with one point of contact. Our service offer enables our customers to find the freedom to do what they do best.

What's important to us

Inclusion and diversity of thought are our top priorities. It's important that we have diversity across our business that represents the communities in which we operate. But diversity is only part of the equation. What's just as important is being an inclusive employer. We want to include and hear from our people when we are forming strategy and making key decisions. Inclusion of our people is the key to paving our way forward into the future.

We have robust training and development programs to help our people learn, develop and thrive in their roles. This leads to significant career development opportunities within BlueScope Distribution and across the broader global BlueScope business. Refer to our employee case studies for some examples of how some of our employees are progressing their careers.

Our people

- 400 employees Australia wide
- 16 locations across Australia
