Commitment to project success

We are BlueScope Distribution, a market leading steel and aluminium distributor and solutions provider.

BlueScope Distribution can supply a huge range of steel and aluminium products, which our agricultural manufacturing customers use to produce a wide range of on-farm plant equipment needs. Our teams can also supply a wide range of on-farm steel products such as yarding systems, fencing and stock handling equipment.

Providing end to end solutions to the agriculture and farming industry

Our team is committed to providing a diversified range of products, high quality processing capability and a broad range of services which help support our customers to find the freedom they need to do what they do best.

We are proudly Australian. The strength of our steel and aluminium products made for tough Australian conditions aim to deliver industry confidence.

Extrusions

Plate

Grade 250/350
Boiler & pressure vessel
Floorplate & coilplate
Quenched & tempered

Rural

Livestock handling equipment
Fencing

Sheet & coil

Cold rolled
Hot rolled
Metallic coated
Pre-painted

Your single source product, processing and service solutions provider

01 Steel. Aluminium.

Products

We have access to a full suite of steel and aluminium products for agricultural manufacturing, as well as the ability to supply livestock handling equipment, yards and fencing for all your on-farm needs. As a trusted distributor to the agriculture and farming industry, we partner with our customers to meet their project requirements.

Backed by our commitment to quality, we help reduce compliance risk through our ISO 9001 quality management system accreditation with documented systems and processes.

Some of our key products include:

Zincalume®

Galvabond®

Xlerplate®

02 Steel. Aluminium.

Processing

BlueScope Distribution provides a complete range of steel and aluminium processing which enables us to provide ready to use products our customers serving the agriculture and farming industry turn into end user solutions.

We are committed to providing high quality processing capabilities, ranging from steel plasma cutting, bevelling, shearing, slitting and re-coiling to complex and precise aluminium router cutting. We also offer external processing with laser cutting (steel and aluminium), blasting and priming steel products to support agriculture and farming work.

Our key processing services include:

Steel plasma
beamline profiling &
bevelling

Steel sheet
shearing & coil
slitting

Aluminium routing,
sheet shearing &
coil slitting

Value Added
blasting, priming &
galvanising

Solutions

Highly recognised for our exceptional customer service, we provide our agriculture and farming customers with end-to-end steel and aluminium project management solutions, delivering personalised supply chain co-ordination. Our teams have the experience to meet project milestones by coordinating material from multiple suppliers, managing production schedules, transport and delivery to provide one seamless point of contact.

Our ability to label and kit material helps some customers to find significant efficiencies in their production, and our team have the technical resources to tackle the most complex project requirements. We can provide storage solutions or VMI (Vendor Managed Inventory) for our customers serving the agriculture and farming industry.
