

Health, Safety & Environment Career journey

Informative, guiding & supportive

Our Safety teams work in conjunction with the business to make the work environment safe. Partnering with the business on projects, safety and wellbeing initiatives, these roles are responsible for guiding employers and leaders to keep employees safe while also providing education and advice on safety and wellbeing best practices.

Our approach to sustainability underpins the strength of our organisation, taking a balanced view of business objectives, broader trends and stakeholder interests.

Health & Safety role examples

- Health, Safety and Environment Manager
- Health and Safety Professional

Why choose a career in Health & Safety?

Working in Occupational Health and Safety is rewarding and allows you to make a difference by working towards a better work culture and providing a safe and happy work environment. If you enjoy learning processes, looking for areas of improvement in relation to safety and educating others on the importance of being safe and healthy then this could be a career suited to you!

Health and safety professionals are particularly sought after in diverse industries, in particular construction, building and manufacturing. Health and safety qualifications also offer a great chance to progress your career and provide you with transferable skills that can be used in many different roles and sectors.
